Bluegrass Community & Technical College challenges students to excel academically and strives to provide scholarship opportunities for those who achieve academic excellence. This application is the first step for BCTC science students seeking scholarship opportunities.

Science Excel Scholarship Information

Science Excel Scholarships are awarded for one academic year with equal disbursements made in the Fall and Spring semesters. Based on academic talent and financial need as determined by FAFSA, the amount of the award can be up to $6000.00 per academic year. Scholarship recipients must maintain the required 15 credit hour load at BCTC (developmental and audit classes do not count) and must earn the required 2.5 GPA during the Fall semester in order to qualify for the Spring semester award. The Science Excel Scholarship can be renewed for a second year if the student maintains the 2.5 GPA and completes 30 credit hours of prescribed courses in the first year.

A scholarship recipient receiving other forms of financial aid may have awards adjusted to prevent overawards. In the event a recipient should withdraw from Bluegrass Community & Technical College, the refund will be returned to the scholarship fund according to regular refund policies.

Scholarship recipients must be citizens of the United States, nationals of the United States (as defined in section 101(a) of the Immigration and Nationality Act), aliens admitted as refugees under section 207 of the Immigration and Nationality Act, or aliens lawfully admitted to the United States for permanent residence.

Application Deadline

The Priority Deadline for submitting the Scholarship Application is April 30, 2009. Students who apply after the priority deadline will be considered as alternates for scholarships declined after initial awards are made.

Award Notification

Notification of awards will be made once the Science Excel Scholarship Committee reviews the applicants and submits the nominees to the BCTC scholarship committee and the college President. The college will then send out official notification to selected applicants with a Confirmation Form. Students who accept the offered scholarships must return the Confirmation Form within three weeks. Award notifications are typically mailed during the summer.

Completing the Application

Unless otherwise listed, the award amounts will be determined annually. Students selected to receive Science Excel scholarship awards will be expected to write a thank you letter to the Science Excel Project Team.

Students must apply and be accepted to Bluegrass Community and Technical College to apply for the Science Excel Scholarship. Complete College and scholarship applications must be received before the student will be considered for a scholarship.

Students should complete the Free Application for Federal Student Aid prior to March 15, 2009 for priority consideration of grants and to allow processing time for scholarship consideration.
SCIENCE EXCEL SCHOLARSHIP APPLICATION
