

PRE-BACCALAUREATE PROGRAM

Note: The following information is based on the USP requirements for 2004-2005. For updated information, please consult the UK Bulletin

As one of its principal functions, BCTC offers two years of transfer work toward most baccalaureate degrees. Students planning to transfer to a four-year college or university should consult with their advisor about appropriate programs of study and should familiarize themselves with the catalogs of the institutions to which they plan to transfer since programs of study vary somewhat from one institution to another.

The following are among the major undergraduate fields of study offered by the University of Kentucky: Agriculture; Architecture; Arts and Sciences, including such majors as Anthropology, Biology, Chemistry, English, Foreign Languages, Geography, Geology, History, Mathematics, Philosophy, Physics, Political Science, Psychology, and Sociology; Business and Economics; Communications and Information Studies; Education; Engineering; Fine Arts; Health Sciences; Human Environmental Sciences; Nursing; Pharmacy; Pre-Dentistry; Pre-Law; Pre-Medicine; Pre-Veterinary Medicine; and Social Work.

UK UNIVERSITY STUDIES PROGRAM

A university education truly worth the name must do more than prepare students for a job or a career. It must broaden their understanding of the world, of themselves, of their role in society, and of the ideals and aspirations which have motivated human thought and action throughout the ages. It must help individuals use their acquired knowledge to grow in maturity as they take responsibility for their lives by establishing their own individual goals and developing the habit of lifelong learning.

The broad goals of the University of Kentucky's general education program, called University Studies, make for mature, open, flexible individuals who can adapt to changing situations, learn new skills, and meet unforeseen challenges in their careers. At the same time, University Studies will help students to develop their own sense of values, to pursue their own goals, and to contribute to the political, moral, social, and cultural enrichment of society.

The University Studies Program is separated into ten areas of study: math, foreign language, inference-logic, written communication, oral communication, natural sciences, social sciences, humanities, cross-cultural, and electives

NOTE: A course taken to satisfy a requirement in one area of University Studies cannot be used to satisfy a requirement in another, with the exception that one calculus course will satisfy both *I. Math* and *III. Inference-Logic*.

I. MATH

Upon completion of the math requirement, students will be able to: (1) demonstrate skills in use and interpretation of definitions, notations, and formulas that employ words and numbers to represent and solve problems; and (2) use and interpret principles of mathematical reasoning.

To fulfill the math requirement, complete one of the following:

- A score of 26 or above on the mathematics section of the ACT, bypass examination, or
- MA 109 College Algebra, or
- MA 110 Analytic Geometry and Trigonometry, or

- MA 111 Introduction to Contemporary Mathematics, or
- any calculus course.

II. FOREIGN LANGUAGE

Upon completion of the foreign language requirement, students will be able to: (1) communicate orally in simple terms using the language; (2) read, write, and translate simple passages in the language; and (3) describe some ways in which language is reflected in the culture in which it is used and also ways in which culture is reflected in its language.

To fulfill the foreign language, complete one of the following:

- Two years of a foreign language in secondary school as indicated on transcripts, or
- Any two-semester sequence (at least six hours) in a single foreign language at the college level.

III. INFERENCE-LOGIC

(With Statistics or Calculus Options)

Upon completion of the inference-logic requirement, students will be able to: (1) draw reasonable inferences from data, observations, and logical premises; (2) evaluate the quality of an argument or solution; and (3) use principles of formal reasoning to solve problems.

To fulfill the inference-logic requirement, complete one of the following:

- Any calculus course, or
- STA 200 Statistics: A Force in Human Judgment (Prereq: MA 109), PLUS
- PHI 120 Introductory Logic, or PHI 320 Symbolic Logic I.

Note: Students must satisfy the math requirement before enrolling in STA 200.

IV. WRITTEN COMMUNICATION

Upon completion of the written communication requirement, students will be able to effectively communicate ideas through written work for various audiences.

To fulfill the University Studies written communication requirement, complete the First Year Writing Requirement (4 credit hours). Honors Program students satisfy the First Year Writing Requirement through that curriculum.

The University's writing requirement also has a second component – the Graduation Writing requirement – that is not part of the University Studies Program. See "University Writing Requirement" in the UK Bulletin on pages 64-65 in the *Academic Requirements* section for more details.

First Year Writing Requirement

Complete one of the following:

- ENG 104 Writing: An Accelerated Foundational Course*
- Score of 32 or above on the English component of the ACT; score of 700 or above on SAT I Verbal; or score of 4 or 5 on the AP English Language Exam.

*Full-time students must enroll in ENG 104 in either the fall or spring semester of their first year. They may drop the course

during the first year, but beginning in their third semester, students are not allowed to drop the course and will be required to register for the course each semester until they have completed the First Year Writing Requirement.

NOTE : Students who have earned credit for ENG 101 or equivalent, and students with a score of 3 on the AP English Language Exam may select either ENG 102 or ENG 104 (recommended) to complete the First Year Writing Requirement. UK no longer offers ENG 101 but will offer 102 as needed.

V. ORAL COMMUNICATION

Suspension of the Oral Communication Requirement

Students who enroll at the University of Kentucky for the first time in Fall 2004 through Summer 2007 are not required to complete the Oral Communication Requirement. Students who enrolled for the first time prior to Fall 2004 must complete the Oral Communication Requirement.

This suspension applies **only** to University Studies Requirements. Many programs are required by their accreditation to have an oral communication component; students in these programs are still required to fulfill that component.

Please check with the UK college advisor or college dean 's office for updated information on individual program information.

Previous Oral Communication Requirement

Upon completion of the oral communication requirement, students will be able to effectively communicate ideas through oral communication for various audiences.

With the approval of your advisor, the oral communication requirement may be fulfilled by completing one of the following:

- one of the following courses:
COM 181 Basic Public Speaking
COM 252 Introduction to Interpersonal Communication
COM 281 Communication in Small Groups
COM 287 Persuasive Speaking
TA 225 Vocal Production for the Stage I
 - bypass examination, or
 - an alternate sequence in the student's major department*
- *NOTE: Some colleges or departments have approved an alternate route for satisfying the oral communication requirement. Discuss with your advisor how you should select courses to complete this requirement.*

VI. NATURAL SCIENCES (Six hours)

Upon completion of the natural sciences requirement – for each course taken – students will be able to: (1) demonstrate knowledge of major theories and phenomena associated with a field or discipline of natural science; (2) demonstrate an understanding of scientific reasoning; and (3) identify the methods and practices of inquiry associated with theoretical advances in a natural science discipline. To fulfill the natural sciences requirement complete at least six hours from the following courses:

Biology

BIO 102 Human Ecology
BIO 103 Basic Ideas of Biology
BIO 150 Principles of Biology I
BIO 151 Principles of Biology Laboratory I
BIO 152 Principles of Biology II
BIO 153 Principles of Biology Laboratory II
BIO 300 General Entomology

VII. SOCIAL SCIENCES (Two courses in separate disciplines)

Upon completion of the social sciences requirement – for each course taken – students will be able to: (1) demonstrate knowledge of major theories and phenomena associated with two fields or disciplines of social science; (2) demonstrate an understanding of scientific reasoning; and (3) identify the methods and practices of inquiry associated with theoretical advances in a social science discipline.

To fulfill the Social Sciences requirement select two courses in separate disciplines from the following courses: *Note that AEC 101 is in the Economics category and ACE 102 and WS 200 are in the Sociology category.*

Anthropology

ANT 101 Introduction to Anthropology
 ANT 241 Origins of Old World Civilization
 ANT 242 Origins of New World Civilization

 PS 235 World Politics
 PS 271 Introduction to Political Behavior

Psychology

PSY 100 Introduction to Psychology

Sociology

†SOC 101 Introductory Sociology
 SOC 152 Modern Social Problems
 SOC 235 Inequality in Society
 SOC 260 Population, Resources and Change
 SOC 335 Women and Men in Society
 †ACE 102 The Dynamics of Rural Social Life
 WS 200 Introduction to Women's Studies in the Social Sciences

†*Students may not receive credit for both SOC 101 and ACE 102.*

VIII. HUMANITIES (Six hours)

Upon completion of the humanities requirement – for each course taken – students will be able to: (1) demonstrate knowledge of major developments in Western culture, particularly the interrelationships between historical, aesthetic, and literary perspectives; (2) explain how cultural, historical, and intellectual forces are represented in artistic and literary works from the past and present; and (3) identify the methods and practices of inquiry associated with theoretical advances in a humanities discipline.

To fulfill the humanities requirement, complete six hours from the following courses:

Architecture

ARC 212 History and Theory I: 15th-17th Centuries
 ARC 213 History and Theory II: 18th-19th Centuries

Art

A-H 105 Ancient Through Medieval Art

Honors

Honors students with a score of 29 or better on the English component of the ACT may satisfy both the University Writing requirement and the Humanities requirement by passing three colloquia. Those with less than 29 on the English component of the ACT may satisfy both requirements by passing four colloquia. Honors students who complete all four colloquia also satisfy six-hour elective (X. electives, below). These students do not receive an extra six hours of credit, since credit is already applied toward the Humanities and the writing portions of University Studies.

X. ELECTIVES

(Six hours)

With the approval of the advisor, students must complete six hours of electives, three hours of which must be outside the student's major. Some colleges may have additional information on the selection of these electives, so contact your advisor for more information.

Change in Program Requirements

When requirements for a degree program are changed after a student has enrolled in it, the student has the option of fulfilling either the old or the new requirements.

In fulfilling the old requirements, if a student finds necessary courses have been eliminated or substantially revised, the student may substitute other courses with the approval of the President. In this eventuality, however, the student shall not be forced to comply with the new requirements.

However, if a student interrupts work in the program or Bluegrass Community and Technical College for more than two semesters, then the President shall determine which requirements the student shall fulfill.

If the curriculum revision is required by an external accreditation or certification body, and this body submits a written statement to the College that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

GENERAL EDUCATION PROGRAM

Note: The following information is based on the General Education Program for 2004-2005. For updated information, see the catalog online at www.bluegrass.kctcs.edu/lcc/reg/

Mission Statement: *The General Education Program at Bluegrass Community and Technical College provides an inclusive student-centered learning community which offers a wide range of courses in all areas of the basic requirements for associate and baccalaureate degrees. The General Education Program helps students become intellectually flexible, articulate, creative, and prepared for continuous growth.*

An institution of higher learning must do more than prepare students for a job or career. The overall goal of education must be to help students become productive people who are aware of the ideas and aspirations which motivate human thought and action, and who can successfully use their understanding of the world, themselves, and their roles in society. Education is a shared responsibility among college students, faculty, and administration. Since lifelong learning is necessary for living in a constantly changing society, the general education core exposes students to a variety of learning experiences.

There must be sufficient breadth and depth in the curriculum to meet the needs, interest, and abilities of all students. A general education core curriculum will ensure that Bluegrass Community and Technical College graduates well-educated men and women who are intellectually flexible, articulate, creative, and prepared for continuous growth. For all students, this implies some understanding of the world of work and career fields and an understanding of their own abilities, interests, and needs. The general education core curriculum will also help students to develop their own values, to pursue goals, and to contribute to the political, moral, social, and cultural enrichment of society.

General Education Learning Outcomes

Upon completion of an associate degree program (AA, AS, AAS), the graduate will:

Communicate effectively

- Write clearly
- Speak clearly
- Read with comprehension
- Listen with comprehension
- Use symbolic language
- Work cooperatively with others
- Use technology to process information

Think critically

- Demonstrate problem solving skills
- Analyze/interpret creative expressions, resources, and/or data
- Integrate knowledge
- Use logical thinking to draw conclusions

Learn independently

- Find, evaluate, and use resources effectively
- Apply learning
- Think creatively
- Value new ideas and differing perspectives

Examine relationships in diverse and complex environments

- Define the relationship of self to historical and cultural context

- Define the relationship of self to the biological/physical environment
- Define the relationship of self to the global community
- Use mathematics to analyze physical relationships.
